User Story Review Documentation Template

Formal Documentation Framework for User Story Development and Testing

User Story #1

User Story Description: [Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD): [Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist:

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video: [Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale):

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria:

- 5 = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- 4 = Meets most UAT standards with minor issues
- 3 = Partially meets UAT standards - significant improvements needed
- 2 = Does not meet UAT standards - major defects present

- 1 = Minimal functionality - extensive rework required
- 0 = Non-functional or not implemented

Future Improvements for v2.0: [Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #2

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) **Happy Path Scenario** - successful completion of user story with expected results, 2) **Negative Path Scenario** - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues
- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present

- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #3

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- 5 = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- 4 = Meets most UAT standards with minor issues
- 3 = Partially meets UAT standards - significant improvements needed

- 2 = Does not meet UAT standards - major defects present
- 1 = Minimal functionality - extensive rework required
- 0 = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #4

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues

- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present
- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #5

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues
- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present
- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #6

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- 5 = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- 4 = Meets most UAT standards with minor issues
- 3 = Partially meets UAT standards - significant improvements needed
- 2 = Does not meet UAT standards - major defects present
- 1 = Minimal functionality - extensive rework required
- 0 = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #7

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues
- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present
- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #8

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) **Happy Path Scenario** - successful completion of user story with expected results, 2) **Negative Path Scenario** - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues
- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present
- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #9

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) **Happy Path Scenario** - successful completion of user story with expected results, 2) **Negative Path Scenario** - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria

- **5** = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- **4** = Meets most UAT standards with minor issues
- **3** = Partially meets UAT standards - significant improvements needed
- **2** = Does not meet UAT standards - major defects present
- **1** = Minimal functionality - extensive rework required
- **0** = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]

User Story #10

User Story Description

[Provide detailed user story following the format: As a [user role], I want [goal/desire] so that [benefit/value]. Include acceptance criteria and business context.]

Interaction Overview Diagram (IOD)

[Insert interaction overview diagram showing the flow of interactions between user, system components, and external services. Diagram should illustrate the complete workflow from user action to system response.]

Implementation Checklist

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 1]	[ ] Yes [ ] No	[ ] Yes [ ] No
[Use Case 2]	[ ] Yes [ ] No	[ ] Yes [ ] No

Use Case	Implemented (Yes/No)	Tested (Yes/No)
[Use Case 3]	[ ] Yes [ ] No	[ ] Yes [ ] No

Demo Video

[Insert video URL or embed demo video here. Video must demonstrate: 1) Happy Path Scenario - successful completion of user story with expected results, 2) Negative Path Scenario - error handling, validation failures, and edge cases.]

Satisfaction Score (0-5 Scale)

Score: [ ] 0 [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Scoring Criteria:

- 5 = Fully meets UAT (User Acceptance Testing) standards - all acceptance criteria satisfied, no critical defects
- 4 = Meets most UAT standards with minor issues
- 3 = Partially meets UAT standards - significant improvements needed
- 2 = Does not meet UAT standards - major defects present
- 1 = Minimal functionality - extensive rework required
- 0 = Non-functional or not implemented

Future Improvements for v2.0

[Document enhancement suggestions, feature extensions, performance optimizations, and user experience improvements to be considered for future iterations.]
